Fiscal Year 2017

Volume IV - Public Safety, Natural Resources and Transportation

Gina M. Raimondo, Governor

Agency

Department Of Environmental Management

Agency Mission

The mission of the Department of Environmental Management is to protect, restore, manage and promote the State's natural resources while maintaining its citizens' health and safety and to motivate citizens to practice an environmental ethic based upon an understanding of their environment, their own dependence on it, and the ways in which their actions affect it.

Agency Description

To ensure residents have equal access to environmental benefits and to prevent any segment of the State's population from bearing a disproportionate share of environmental risks and pollution.

To ensure all residents and visitors will have the opportunity to enjoy a diverse mix of well-maintained, scenic, and accessible facilities and outdoor recreation opportunities.

To ensure natural habitats are managed to maintain species biodiversity.

To ensure air, water, and land resources are restored and maintained to protect public health and ecological integrity.

To educate residents and corporate entities to practice an environmental ethic based upon an understanding of their environment, and how their interactions affect it, including prevent pollution and minimize waste at the source.

To practice careful stewardship of Rhode Island's finite water, air, land, agriculture, forest resources, and to ensure that Rhode Island's rich aquatic resources are maintained for the future.

To take necessary actions to preserve and enhance resources of the Narragansett Bay and coastal environments.

To revitalize, protect, and restore urban areas for reuse while conserving ecologically sensitive urban areas.

To promote economic opportunity that preserves the State's resources and maintains Rhode Island's high quality of life for a sound economy.

One of the top cross-cutting priorities is improving customer service. This includes training for all staff in 2012 and development of improved systems and feedback. A critical component of this effort is the Department's LEAN government initiative which is aimed at reducing waste, standardizing processes, and producing clear, predictable, and reliable regulations.

Statutory History

R.I.G.L. 42-17.1 establishes the Department of Environmental Management.

Performance Measures

Department Of Environmental Management

Timeliness of Permitting Decisions

Environmental permits ensure that emissions and discharges from regulated operations meet standards for a healthy and clean environment. The review and decisions on applications for environmental permits must be done in an effective and timely manner. Fifteen permitting programs in DEM have timeliness targets for issuing decisions; the figures below represent the percentage of those programs that met their timeliness targets.

	2013	2014	2015	2016	2017
Target				90%	95%
Actual			60%		

Performance for this measure is reported by state fiscal year.

Enforcement Action Compliance

Most instances of non-compliance with environmental rules result in the issuance of an informal enforcement action (essentially a warning letter with no fines). The figures below represent the percentage of enforcement cases that return to compliance within 120 days of the issuance of an informal action.

	2013	2014	2015	2016	2017
Target				85%	90%
Actual		82.3%	78.3%		

Performance for this measure is reported by state fiscal year.

Contaminated Site Cleanup

Contaminated properties present a risk to the health of the residents in the surrounding community. Contamination also is a barrier to economic reuse and redevelopment of property. The figures below represent the number of acres of contaminated properties/ sites cleaned up annually. [Note: Calendar Year 2015 data is currently undergoing quality review.]

	2013	2014	2015	2016	2017
Target				100	100
Actual	198	373			

Performance for this measure is reported by calendar year.

Performance Measures

Department Of Environmental Management

Farm and Natural Resource Preservation and Protection

DEM purchases land and development rights to protect working farms, forests, drinking water supplies and fish and wildlife habitats and to provide ample recreational opportunities. These lands sustain the state's tourism industry and enhance Rhode Islanders' quality of life. The figures below represent the acres of farm and natural resource areas preserved and protected.

	2013	2014	2015	2016	2017
Target				89,491	90,178
Actual	85,091	86,985	88,143		

Performance for this measure is reported by calendar year.

State Park Visitors

DEM supports a robust outdoor recreation industry by operating a statewide system of parks, beaches and recreation areas that provide residents and visitors with a diverse mix of well-maintained, scenic, safe and accessible recreational facilities and opportunities. The system depends on the Department's ability to adequately service the visitor's needs as well as the ability to sustain infrastructure and operations. The figures below represent the annual number of individuals that visit Rhode Island state parks.

	2013	2014	2015	2016	2017
Target				6,740,000	6,780,000
Actual	6,609,813	6,705,649	5,956,495		

Performance for this measure is reported by calendar year.

Commercial Fish Landings - Ports of Galilee and Newport

The commercial fishing industry is a key sector of Rhode Island's economy. DEM works to sustain commercial fisheries in a variety of ways, including monitoring, regulation, promotion, technical assistance, and through operation of the Ports of Galilee and Newport. The figures below represent the value of commercial fish landings in the Ports of Galilee and Newport. [Note: Calendar Year 2015 data is currently undergoing quality review.]

	2013	2014	2015	2016	2017
Target				\$93,800,000	\$98,800,000
Actual	\$86,419,102	\$86,211,477			

Performance for this measure is reported by calendar year.

The Program

Department Of Environmental Management Office of Director

Program Mission

The Office of the Director develops and implements the agency's wide range of programs to protect Rhode Island's environment; protect the citizens of the state from public health threats resulting from pollution; and provide facilities that support a diversity of outdoor recreational activities.

Program Description

The Office of the Director consists of Management Services, Legal Services, Administrative Adjudication, Human Resources, and Information Technology. The Office also coordinates the Department's Planning & Policy Initiatives, Legislative & Intergovernmental Affairs, and Communications and Outreach and houses the Office of the Chair, RI Bays, Rivers, and Watersheds Coordination Team.

The Office of Management Services is responsible for managing the financial, budget, licensing and business support services for the department. This involves maintaining approximately 200 separate accounts for the department's programs, as well as the issuance of 22,339 boat registrations and all hunting and fishing licenses.

The Office of Legal Services counsels and represents the department and its divisions and provides legal guidance on the development and administration of regulatory programs. It also provides legal assistance to a number of municipalities, particularly in the area of land use relating to the preservation of open space.

The Office of Administrative Adjudication is the administrative tribunal for environmental matters originating from the Department. It adjudicates appeals of enforcement actions taken by the Department's regulatory programs and hears enforcement appeals for alleged violations of statues and/or regulations. The Office is responsible for ensuring that the regulated community has an opportunity to contest actions taken by the Department and have such actions reviewed at the agency level.

The Human Resource Service Center staff provides direct administrative support to the Department Director, Senior Management, and the agency's workforce, which currently comprises of approximately 410 full time employees and 510 seasonal positions. Functions include payroll, personnel administration, labor relations, equal employment opportunity, minority recruitment/internship program, and training.

The Information Technology Service Center staff provides oversight, coordination, and development of standardize investments in software, hardware, networks and services. Staff provide the Department with effective and efficient application of information technology and delivers secure, innovative, and reliable technology solutions in the most responsive and effective manner.

The Office of the Chair of the Bays, Rivers, and Watersheds Coordination Team conducts and oversees interagency planning and targeted investments for the protection, restoration, and sustainable development of Rhode Island's fresh and marine waters and watersheds. The Chair reports to the Governor.

The Program

Department Of Environmental Management Bureau of Natural Resources

Program Mission

The objectives of this bureau are to provide stewardship of the State's finite water, air, land, agricultural, forest resources, and the conservation of the State's aquatic resources and to provide people with well-maintained, scenic, and accessible outdoor recreational opportunities. The Bureau's work to increase enjoyment and use of public lands is augmented by the Department's successful Great Outdoors Pursuit. This program attracts thousands of Rhode Islanders who participate in activities that introduce them to our outstanding natural resources.

Program Description

The Bureau of Natural Resources is organized into six divisions:

The Division of Fish and Wildlife manages the State's marine and freshwater, and upland resources to achieve a sustained yield for commercial fishermen, recreational fishermen and hunters; to enhance non-consumptive uses of wildlife; and to protect the State's rare and endangered species. The division maintains state-owned management areas, fishing areas, and boat ramps.

The Division of Agriculture and Resource Marketing manages the State's agriculture programs, including farm viability and protection; licensing and permitting; farm-best management practices; animal health, mosquito and rabies disease control; and pesticide management and regulation.

The Division of Enforcement enforces state laws and regulations governing hunting and fishing, public safety in state parks, and recreational boating. The division maintains a 24-hour hotline and dispatch center, conducts search and rescue activities on both land and the bay, and responds to animal complaints, particularly those associated with rabies. The division oversees the Criminal Investigation Unit, which investigates solid, medical, and hazardous waste violations.

The Division of Parks and Recreation manages eight major state parks, seven state beaches, a golf course, the East Bay and Blackstone Bike Paths, and other secondary parks, historic sites and monuments totaling approximately 14,000 acres. The division administers, maintains and operates these facilities as well as coordinating recreational opportunities and activities at the Narragansett Bay Estuarine Research Reserve and all port facilities and commercial fishing piers in Narragansett and Newport.

The Division of Forest Environment manages 40,000 acres of state-owned forests. It coordinates forest fire protection plans, the Urban Forestry Grant Program, and it assists rural volunteer fire departments.

The Division of Planning and Development is responsible for state land acquisitions, engineering/design work for improvements to state parks and facilities, and local matching grant programs for outdoor recreation, open space preservation and greenways/trails grants.

Statutory History

R.I.G.L. 42-17.1 establishes the Department of Environmental Management.

The Program

Department Of Environmental Management Bureau of Environmental Protection

Program Mission

To ensure the quality of Rhode Island's air, water, and land resources through regulating activities that compromise public health and impact the environment; prevent further degradation of environmental resources; restore existing features and a bureau-wide ethic of customer assistance.

Program Description

The Bureau of Environmental Protection is composed of regulatory and assistance programs.

The Office of Water Resources operates the following regulatory programs: Pollutant Discharge Elimination System; Pretreatment; Underground Injection Control; Groundwater Protection; Water Quality Certification; Onsite Wastewater Treatment Systems; Freshwater Wetlands; Water Quality Restoration Studies (TMDLS); Shellfish Area Monitoring; Wastewater Treatment Facility and Sludge Programs, Nonpoint Source; Water Quality Monitoring and Standards; Financial Assistance (SRF/Bond Funds).

The Office of Compliance and Inspection centralizes response to citizen complaints and regulatory enforcement activities in Air Resources, Waste Management, and Water Resources, to ensure that the department has consistent enforcement policies to address the most serious issues and investigates suspected violations and takes enforcement actions.

The Office for Customer and Technical Assistance serves the public by coordinating the review of projects requiring multiple applications and permits and tracking the status of permitting activities throughout the bureau. OCTA directly reviews projects funded by federal economic stimulus programs. The office assists businesses to prevent pollution by adhering to regulations made more effective by the Environmental Results Program in priority sectors.

The Office of Air Resources is responsible for the protection and improvement of Rhode Island's air resources through monitoring and regulating the emission of air pollutants from stationary and mobile sources.

The Office of Waste Management regulates the transportation and disposal of solid, medical and hazardous wastes and the investigation and remediation of unpermitted releases of those materials. It includes the Site Remediation Program; Brownfield initiatives; Superfund and Department of Defense site programs; Waste Facility Management Program; and Underground Storage Tank Program, including administration of the RI Underground Storage Tank Financial Responsibility Fund.

The Emergency Response Program responds to emergency spills of oil and chemicals that present an immediate threat to public health and the environment, including events related to terrorism and natural disasters.

Statutory History

R.I.G.L. 42-17.1 establishes the Department of Environmental Management.
