Agency Summary

RHODE ISLAND ATOMIC ENERGY COMMISSION

Agency Mission

The mission of this agency is to provide nuclear and radiation science and engineering technical and irradiation services to the public, and regional education, research, industry, and government institutions.

Agency Description

The Rhode Island Atomic Energy Commission maintains, operates, and manages the Rhode Island Nuclear Science Center (RINSC), which is the state's only nuclear reactor. Title 42, Chapter 27 of the Rhode Island General Law (RIGL) is the founding legislation for this agency. RIGL 42-27-5 indicates that the purpose of the facility is education, research, and service to industry. The reactor fuel is owned by the Department of Energy, and leased to the State of Rhode Island free of charge, in return for primarily using the facility for education and research. The facility is regulated by the Nuclear Regulatory Commission (NRC), which waives its fees if the facility is primarily used for education and research.

Statutory History

R.I.G.L. 42-27 establishes the commission for matters related to nuclear science, engineering, education, and the industrial use of atomic energy.

Outreach Hours

The RINSC hosts students from local junior high schools, high schools, and universities. The RINSC also participates in the University of Rhode Island Graduate School of Oceanography's annual Day at the Bay. The figures below represent the number of hours spent providing tours, working with student interns, working on student projects, and reaching out to the general public.
