Small Business Impact Analysis

Regulatory Oversight

As part of the Office of Management and Budget, the Office of Regulatory Reform’s (ORR) mission is to review new and amended regulations with a focus on minimizing adverse impacts on Rhode Island businesses, large and small. Since February 2015, ORR has been operating under [Executive Order 15-07](#), which requires all Executive Branch regulations to be reviewed by ORR using a model similar to the federal regulatory model. EO 15-07 outlines a process to ensure regulations are not imposing unnecessary burdens on businesses and citizens.

Prior to EO 15-07 the Director of Regulatory Reform had the authority to intervene on any individual regulatory or permitting issue. With the new process dictated by Executive Order agencies must submit all of their proposed regulatory actions to ORR providing a systematic way to address regulatory issues. ORR reviews an agency’s regulatory package, and if approved, those proposed rules and impact statements go through a public comment process. Any input from that process goes directly back to ORR for final consideration. Below is an outline of the ORR’s role in the regulatory review process. The second round of review is primarily to ensure the agencies take into consideration public comments and amend the regulation as necessary.

Regular Rulemaking and ORR Review

While this is the official process outlined in Executive Order 15-07, ORR frequently works with agencies early by reviewing draft regulations and assisting with the development of regulatory analysis.

Regulatory Submissions Reviewed By ORR

The following regulatory submissions were cleared by ORR during the fiscal year quarter covered by this report. Regulations cleared by ORR are not immediately effective, regulations must go through the formal rulemaking process administered by the Secretary of State’s Office (SOS). In some cases regulations cleared by ORR are not filed with SOS.

The information in this table (except “Days Under Review” and “Clearance Date”) is self-reported by regulatory agencies with their submissions, although ORR can suggest changes to agency’s submissions. Please note that for any post-comment entries with empty cells, the agency was not required to resubmit this information because the regulation received no public comment and no changes were made to the proposed regulation. Emergency regulations might also have missing data because these submissions are exempt from some reporting requirements.

Preliminary Draft	Environmental Management	Control of Volatile Organic Compound Emissions from Fiberglass Boat Manufacturing	Adoption	4	On March 6, 2017 EPA issued a finding of finding of failure to submit to Rhode Island for failure to submit required State Implementation Plan (SIP) components. Specifically, Section 184 of the Clean Air Act requires states to implement or update reasonably available control technology "RACT" controls on all major VOC and NOx emission sources and on source categories covered by a Control Technique Guideline "CTG" document. In 2006 EPA published a CTG recommending VOC controls for fiberglass boat manufacturing. The Department is proposing to incorporate this CTG into a new rule, which will be submitted to the U.S. Environmental Protection Agency for approval in Rhode Island's State Implementation Plan. This finding establishes deadlines by which states either must submit complete SIP revisions or become subject to mandatory sanctions. The first sanction, the offset sanction, is currently in place. This sanction requires a new or modified major stationary source to obtain greater emission "offsets" than would	NO, this regulation DOES NOT IMPACT small business	2019-01-14

					otherwise be required in order to receive a permit for their source. If the RI has not made a complete submission within 6 months after the offset sanction is imposed, then the Clean Air Act and EPA's implementing regulations impose the highway funding sanction. The highway funding sanction is a prohibition on the use of federal funds for transportation projects within an area, with certain exceptions.		
Preliminary Draft	Business Regulation	Insurance Claim Adjusters	Amendment	0	The rule sets forth the regulatory requirements for Insurance Claim Adjusters. In the last legislative session, the legislature amended one of the statutes upon which the regulation is based by virtue of 2018 P.L. chs. 298 and 321. The Department proposes to make the changes to the regulation to comport with the statutory changes and, in one instance, to clarify existing language.
